

I am writing to express how very important AIR 1 is to both me, and all my family members and friends. Air 1 provides a positive alternative to the usual music that is being played on local and nationwide radio stations. I was truly blessed the day that I found Air 1 on my radio dial. Our lives, here in Rincon, Georgia have been touched in a most positive way by being able to hear the broadcasts each and every day.

If you take our Air 1 away... we will be left without all of the positive music that helps show our young people that there is, indeed, christian music out there that they can relate to.

These days... ANY way to get Jesus into the every day atmosphere is a good one. Air 1 is the most popular way.

In our area, 88.1 is the station we get Air 1 on.

Please don't take that away from us.

God bless and keep you,  
Michelle Shene
